# NORFOLK LUNATIC ASYLUM.

---

## Medical Officers' Annual Report

FOR THE YEAR 1860.

---

TO THE COMMITTEE OF VISITORS.

In compliance with the Rules, and according to the custom of late years, the Medical Officers of the County Lunatic Asylum have the honour to lay before the Committee of its Visitors their Annual Report for the year ending December 31st 1860.

During the year 1860 there have been received at this Asylum 123 inmates—54 men Admissions. and 69 women: the number resident in the Institution on the 31st December, 1859, was 319—139 men and 180 women; the total number of insane persons under care during the year has therefore been 442—193 men and 249 women: the daily average number during the year was 333—144 men and 189 women.

The number of inmates discharged during 1860 has been 61—20 men and 41 women, Discharges. of whom 55 patients—16 men and 32 women, were recovered; and 6 patients—4 men and 2 women, were relieved.

The deaths during 1860 have numbered 41—21 men and 20 women.

Deaths.

There is an increase of 20 in the admissions of this compared with those of the last year; nine of that number have been received from the Infirmary Asylum of the City of Norwich. In 1860, as in the last three years, the constant excess in this Asylum of female lunatics over the male has been considerably increased.

The only observation called for, as to those admitted in 1860, is, that many patients have been sent whose rapid decline, from age or under various conditions of disease, has kept up a high rate of mortality here. The fact that 14 persons, whose feeble condition was remarked on their reception, have died within two months of that event, suggests to the

Admission  
of patients in  
very feeble  
condition.

Medical Officers of the Poor Law Unions and others concerned, that the debility from age or illness of insane persons imposes upon them some responsibility in ordering their removal ; this remark especially applies to the occurrence of maniacal delirium towards the close of life, from phthisis or other exhausting disease, since it is obvious that no treatment can avail in such cases.

Discharges.

The number of discharges in 1860 must be deemed satisfactory, when it is remembered that this Asylum contains so large a proportion of cases which belong to the incurable class, whether from the long duration and low type of their intellectual disorder or from the complication of insanity with epilepsy, paralysis, or other diseases in the nervous centres.

Absence on probation.

During 1860 13 patients—6 men and 7 women, were absent from the Asylum on probation for a term varying from one to two months—of whom all were subsequently discharged as recovered or relieved, save 1 man and 2 women, whose relapses demanded their return hither, thus approving the usefulness of this provision of the law.

Deaths.

The late wet absence of any removable cause of disease. The rate of mortality is indeed rather lower seasons <sup>not</sup> than usual ; and the remarkable lack of warm and genial weather during a great part of the year appears, in this Institution, as in nearly the whole area of the Registrar General's reports, to have had no effect in augmenting the sickness or mortality. It would seem that no particular conditions of heat, cold, moisture, or dryness, in these latitudes act unfavourably upon human health if not accompanied by sudden vicissitudes.

Inquest.

The death of one patient only during the year 1860 has been the subject of an inquest by the County Coroner—a male, aged 36, having been found dead in his bed ; a post-mortem examination disclosed the cause of his sudden end in hypertrophy of the heart.

Escapes

unfrequent here.

Four patients—3 men and 1 woman, escaped from the Asylum during 12 months, all of whom were shortly recovered save one man, who, not being re-taken during the time allowed by law (14 days) was discharged from the books of the Asylum ; he was, however, soon found by the police wandering in Lincolnshire, and was transferred hither from the Asylum of that county. The unfrequent occurrence of these evasions is very remarkable at an Asylum so little enclosed as this—having a public road intersecting its area, and a railway and a navigable river within 300 yards, while the largest of its grounds for exercise, cricket, &c., is on the confines of the farm and open to the adjacent country.

Accidents.

Four severe accidents have happened to the inmates in the year 1860 ; in three instances fracture of the ribs took place—in one from the violence of another patient ; and an epileptic patient dislocated his shoulder in a fit : this was at once reduced by the resident Medical Officer ; and all these cases made a good recovery.

Birth.

One infant was born here, the mother's mental condition precluding the discharge which has commonly been found admissible in like cases ; the infant was removed as soon as it could be weaned.

There has been no instance of mechanical restraint during the year, and seclusion has No Restraint.  
been adopted in five cases only, for terms varying from one to seven days. Seclusion.

The Appendix contains a continuation of the Statistical Tables, published in former Reports. The Medical Officers conclude this brief retrospect of the working of the Asylum during the year 1860 with satisfaction, when they consider the general comfort and tranquility which have pervaded the establishment, that more than the average of health has been enjoyed by its inmates, and that only such sickness or mortality has occurred as is inevitable among the lunatic poor of a large county.

G. W. W. FIRTH, CHIR. Soc.

\* The Milk Broth is made from  $\frac{3}{4}$  pint of New Milk, thickened with Oatmeal, to which  $\frac{1}{4}$  pint of water is added.

† The Cooked Meat is without Bone, consists of Mutton or Beef, Roast or Boiled.

‡ 1 oz. of Tea, 4 oz. of sugar,  $\frac{3}{4}$  pint of Milk— $\frac{5}{2}$  pints.

§ Meat Pie is made of  $2\frac{1}{2}$  oz. of Meat to 8 oz. of Crust.

|| Meat Dumpling,  $2\frac{1}{2}$  oz. of Meat to 8 oz. of Crust.

EXTRA DIET.—For Out-door Workers, Artizans, and Laundry Women, &c., half-pint of Beer, with Bread and Cheese, at Eleven o'clock a.m., and Four p. m.

## FEMALES.

The Fourteenth Report of the Commissioners in Lunacy, dated the 31st of March, 1860, sets forth under distinct heads the weekly cost per head of maintenance in each of the 37 County Lunatic Asylums in England and Wales for the preceding year. The particulars given in that report have enabled me to ascertain the average weekly cost per head in all the Asylums, and to compare the same with the cost in this Asylum.

It is satisfactory to observe that although the cost in this Asylum exceeds the average under some heads of expenditure, it is below the average in others and is a penny under the total average weekly cost in all the County Asylums, being as 8s. 8d. to 8s. 9d.

The unfavorable weather which prevailed during the summer of last year considerably interfered with the out-door employment and recreation of the patients. We were, however, fortunate in the day selected for the annual trip to Lowestoft, which took place on the 10th of August. The weather was unusually fine; and the patients enjoyed themselves during a long day probably more than on any former occasion. The numbers were 107 males and 103 females, total 210.

You are aware that it is intended to provide a State Asylum for Criminal Lunatics, with the view of removing the objections which exist to keeping persons of that class with other patients. The Asylum proposed for this purpose is now in course of erection at Bradmoor, in the County of Surrey. As there have never been in this Asylum any considerable number of Criminal Lunatics, it is not probable that the opening of this State Asylum will affect this institution to any appreciable extent. At the present time there are only six patients who have been convicted of crime and admitted under a warrant from the Secretary of State. The offences of which these persons were charged were not of a serious character.

I have much pleasure in adding that the attendants and servants continue to discharge their respective duties with zeal and efficiency.

The Commissioners in Lunacy who visited the Asylum within the year, were Mr. Procter and Mr. Wilkes, who on the occasion reported in the Visitors' Book as follows :—

“ 1860, May 21, Norfolk County Asylum. Since the Commissioners' last visit on the 16th June, 1859, 109 patients have been admitted, 62 have been discharged, and 36 have died ; 7 dying from general paralysis, the same number from gradual decay, 4 from exhaustion after mania, the same number from phthisis, and the rest from various other disorders.

“ There are now 330 patients (namely, 144 males and 186 females) in the Asylum, about 20 of whom, we are informed, are taking medicine ; one is absent on leave. As the Asylum will hold 220 patients of each sex, there is now a vacancy for 110 patients ; namely 76 men and 34 women.

“ We understand that the Visitors sometime ago agreed to receive patients from the boroughs of Thetford, King's Lynn, and Yarmouth. There are of these at present only 6 patients here ; viz., 3 from King's Lynn, and 3 from Yarmouth. The Visitors, we are informed, are willing to receive 50 patients (30 males and 20 females) from the City of Norwich.

“ We have to day seen the patients and inspected the various galleries and rooms appropriated to their use. The patients appeared to us to be remarkably tranquil, and their wards and rooms and also their bedding very clean. The Asylum contains a great number of prints and flowers, which, with the green-houses, birds, &c., present a very cheerful appearance.

“ There are, however, still many straw beds in the Asylum, which are being slowly diminished, and many trough bedsteads. We hope that every exertion will be used to dispense with these beds and bedsteads. Some of the rooms require better ventilation, particularly the Infirmaries and some bed-rooms, wherein the beds are somewhat too thickly placed, and some where there is no chimney. There should be a few sun-shades provided for the exercise grounds, and blinds are wanting in many portions of the Asylum exposed to the South sun.

“ There are one or more basins in every room, and also chairs, and we have recommended that the attendants should be directed to cause (and, if necessary, instruct) the patients themselves to use the means of washing and to dress and keep their persons neat. We think that the body linen should be changed oftener than once a week, and that the male patients should be shaved oftener.

“ About 215 (including both sexes) are employed ; about 222 on an average go to church on Sundays, and nearly the same number on week days ; and we learn that 80 or 90 men take extended exercise on Sundays, and about 60 or 70 in the course of the week. 247 patients went to Lowestoft last year.

“ There is no School in the Asylum, and no baking or brewing is done there, the beer and bread being procured from Norwich.

“ We saw 293 patients assembled at dinner to-day, who were very orderly and quiet.

" Mr. Casson is absent to-day, and we have no access to the Case Book or Medical Visitation Book. We are gratified to learn that the Visitors have increased this gentleman's salary.

" An additional attendant in No. 1 of the male side, and in the Infirmary on the female side, is much wanted. There is a Night Attendant on each side of the Asylum, and we are glad to see " a female nurse (the wife of one of the attendants) on the Male Infirmary.

" Upon the whole, we are much gratified by the clean, cheerful, and general good state of " the establishment.

*(Signed)*

" B. W. PROCTOR, } Commissioners  
" JAMES WILKES, } in Lunacy."

I have the honour to be

Gentlemen,

Your most obedient Servant,

EBENEZER OWEN,

Superintendent.

To the Visiting Justices of the  
Norfolk County Lunatic Asylum.
